

General Meeting 15 June 1962

Lakehead Amateur Radio Club

The meeting was held in the Civil Defence Building with President Bill Blennerhassett - VE3AGA in charge.

Minutes of the May meeting were read by the Secretary, Roy Lindenhoff - VE3EEG, and were moved to be adopted as read by Hugh Elliot - VE3EBW and seconded by Stan Stanford - VE3EEC.

It was learned that we could not visit the monitoring station as had previously been planned due to their strict visitors rules, however, plans had been made by the President to visit the studios of CFPA.

Field Day was next on the agenda, and although only briefly discussed, everything was under control and plans for this special occasion were nearing a close. Several volunteered to help set up antennas etc. and Frank Start - VE3AJ assured the Club that everything would be ready.

A discussion on the Grand Marais picnic followed and it was decided that everyone be notified just before the picnic day so that amnesia would not be the cause of a poor turn-out.

Following this, the meeting was adjourned (*on a motion*) by Frank Start - VE3AJ and seconded by Don Brown - VE3EDJ.

We then proceeded to the CFPA station where Ralph Parker - VE3HU was waiting for us, and we were conducted on a most interesting and informative tour of the station. We were shown how the equipment was operated, and what circumstances were entailed to put a programme on the air. This was for certain a most enjoyable evening and the time spent on this visit was well worth it.

After this the gang broke up and went their separate ways. No coffee, and the doughnuts were sold.
